| C. REPORTING YOUR FUEL USAGE | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|--|
| <p>Why does the PA Fish and Boat Commission ask for your estimated fuel usage?</p> <p>The Fish and Boat Commission, an independent agency, receives no general tax revenues and is primarily funded by the sale of fishing licenses and boat registrations. Part of the agency's funding comes from a reimbursement of the 12 cents per gallon tax on gasoline purchases, which are used for boating purposes.</p> <p>The money received from the reimbursement is used by the Commission for the sole purpose of providing boating programs and boating access facilities. You have already paid this tax. Why not see that it comes back to YOUR boating program? Please report your fuel purchases as accurately as possible.</p> <p style="text-align: center;">Reporting a high fuel usage does not affect your boat registration fee!</p> | | |
| <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px;">Gallons of fuel used last year: </td> <td style="padding: 5px;"></td> </tr> </table> | Gallons of fuel used last year: | |
